D365 Technical Leader – Liège

Regarding the several ongoing projects within the IT Department, we are currently looking for a D365 Technical Leader, ready to travel abroad 10% of his/her time :

Missions

- To participate in the design and in the build of our solutions on D365 platforms by providing technical advices and by developing these solutions
- To design, build, roll-out, run and support the common back office information systems in a secured, agile and cost effective manner.
- To lead the Group Technical Solution (technical architecture, development & release)
- To maintain D365 environments

Education / Experience

- Bachelor / Master Degree in a relevant field or equivalent experience
- Technical Leader (> 5 years experience)
- Development/programing experience (> 5 years experience)

Required Skills

- Certificates in connection with D365 Development
- Excellent D365 CE / SCM Technical knowledge
- Experience with Release Management & related tools (LCS, DevOps, ...)
- Experience in troubleshooting and debugging
- Experience in Data Migration
- Ability to lead a dev team (2-3 developers)

Schröder
