

## Portfolio Manager – Power & Gas (m/f) (Liège, Belgium)

*Lampiris is the 3<sup>rd</sup> player on the gas and electricity market in Belgium, providing gas and green electricity to more than 1 million customers on the B2C and B2B markets. As one of our founding values, providing green and sustainable electricity to our customers requires dedicated efforts to always balance our green portfolio, a wind offshore long term contract, an hydro power plant and the consumption of our customers in the Belgian and Dutch market. To do so and to ensure a competitive sourcing, the Energy Management team is growing and we are looking for a new colleague. You want to be part of this story ?*

### Your function

As « **Portfolio Manager – Power & Gas** » you are part of the ‘Energy Management’ department of Lampiris, a young, dynamic and growing team. You report directly to the Energy Sourcing Manager and you are responsible for the sourcing, balancing and optimization of the power and gas portfolio in Belgium and The Netherlands.

Your main missions are :

- Manage the open positions or exposures by buying and selling electricity and gas on the markets
- Work in collaboration with the Data & Risk team to improve the accuracy of the forecasting, exposure and P&L reports
- Implement the overall hedging strategy of the Belgian and Dutch portfolios and maximize the indirect (procurement) margin
- Participate to the continuous improvement of the IT landscape of Energy management
- Negotiate specific procurement contracts such as gas storage or long term supply contracts
- Manage the clicks of some large B2B customers
- Reinforce and manage a network of counterparties in the Belgian and Dutch markets (brokers, traders, Total Trading).

### Your profile

- You have a master degree in a quantitative discipline (economics, engineering, mathematics, business administration).
- You have a minimum experience of 3 year in the energy sector. An experience in energy trading is a strong asset for the job.
- You speak English and French, Dutch is an asset.
- You can easily understand complex market mechanisms.
- You are able to work in a stressed environment and manage priorities in a timely manner.
- You can summarize a lot of information and clearly communicate recommendations to the Management

You will be based in Liège (Belgium) with from time to time travelling to The Hague, Paris or Geneva to ensure the coordination with other entities of Total GRP (Gas, Renewables and Power).
